

FAITH COMMUNITIES GO GREEN

ENERGY EFFICIENCY COMPANIES
(EEI COMPANIES)

ENERGY EFFICIENCY (EEI) COMPANIES FOR FAITH COMMUNITIES

Step 1. Organize a Green Team and select a designated person to communicate with FCGG.

Step 2. Collect 12 consecutive months of utility bills and send to facilities@fcgg.org and copy fcgg@greenumbrella.org. FCGG will input the data into software to benchmark and report your energy use. It's important to track your utility bills to calculate utility bill savings and reduced emissions.

Step 3. Work with a professional Energy Auditor specialist to develop a plan to make your facility energy efficient and achieve the best return on your investment. The specialist may also help you compare financial plans such as loans, grants, or other financial tools. Learn if your building is ready for solar or geothermal. Cost is determined by the level of the audit, ASHRAE level 1 or level 2, square footage, and complexity of the building equipment. If your faith community cannot afford an energy audit by a professional energy specialist contact our FCGG Facilities leader, Ken, at facilities@fcgg.org

Please share your data with Faith Communities Go Green for FCGG grant applications to expand the Energy Efficiency Initiative into more faith communities.

Here is an incomplete list of regional companies in energy efficiency consultation. Please do your due diligence through research and bids before selecting a company.
